Simbaligner is a product of SimbaDent

[www.simbadent.com](http://www.simbadent.com)

## Customized treatment plans. Individual pricing.

At Simbadent, we understand that every smile is unique. That's why our treatment plans are tailored to your individual needs, and our pricing is based on the number of Simbaligners required for your treatment.

## How do I have to wear the Simbaligner?

The success of the treatment is dependent on your discipline in wearing it. You should wear the aligner 20-22 hours per day for the best results. Each step should be worn for 2 weeks, before you get your next set of trays. Aligners should be taken out when eating and drinking.

## What are Simbaligners?

Simbaligner also known as clear dental aligners are an excellent option for teeth straightening, serving as a viable alternative to braces. Their thin and colorless appearance makes them virtually invisible, and they can be easily removed for a more comfortable eating and drinking experience.

## What is the process of getting aligners?

- Get an Intraoral scan done. One of our dental partner clinics can perform that for you.
- After the intraoral scan is completed by the dentist, they will send the scans to us. Our team of orthodontic experts will then use the scans to design the perfect smile for you.
- Once you have approved the digital design, which will be sent to you via a 3D web viewer, we will commence the production of your custom-made Simbaligners.
- Your dentist will receive the Simbaligners, and they will contact you to initiate your treatment.

To get started, schedule an orthodontic assessment with our experienced dentists. They will evaluate your teeth and provide you with a clear breakdown of any associated costs.

Our design fee is 12,500 KES, and our fees per Simbaligner are based on your personalized treatment plan. After you are assessed & we formulate a treatment plan the clinic will communicate the final price.

We believe everyone deserves a confident, healthy smile, and our team is committed to providing affordable, effective orthodontic care.

Contact us today to schedule your appointment and get started on the path to a perfect smile.
